Want a Bed That Folds

Looks Well and Does Not Take Up All the Space in the House

This is the cry that every furniture dealer hears almost every day of his life.

Here It Is

It is the Safety Folding Bed. To take our expression for it just as we would say it to you. "It is the slickest thing yet." It can be folded when made up ready for use.

It is all metal. It has the best kind of a national spring. It is finished in white enamel with gilt trimmings.

It folds easily. It is neat and makes a tasty addition to the furnishings of any room in the house. It is reasonable in price. What more do you want when you are short up for space? We also have Children's

Cribs made on the same plan.

We will gide a Public Demonstration of this new Safety Folding Bed in our show window

Plenty of Prosperity Here.

In times of uncertainty every little straw is seized on as an index of general conditions, but amidall the talk that has been heard in recent weeks, at no time has doubt been expressed in regard to our national credit. On the contrary eminent financiers have put themselves on record as firmly of the belief that a return of a greater prosperity cannot be long deferred. In this connection it may be mentioned that besides the HUNDREDS OF MILLIONS of silver lying in the treasury vaults there are SEVEN HUNDRED MILLIONS of gold coin there, in addition to the two hundred millions or more on deposit elsewhere and, coupled with the great influx of gold from abroad, is sure to put us on better footing than ever before. We were never in better shape to serve you and serve you well than at present.
